CSU RACE APPROVED COURSE PROGRAM

**EQUINE DENTAL DIAGNOSTICS
UPGRADE: FOCUS ON OROSCOPE
EXAMINATION AND RADIOGRAPH
ACQUISITION AND INTERPRETATION**

OCTOBER 27, 2021

FOR EQUINE VETERINARIANS

COURSE DESCRIPTION

Equine Dental Diagnostics Upgrade is a course designed to hone a practitioner's oral examination and dental radiographs skills utilizing the newest technology.

This course focuses on arming veterinarians with a deeper understanding of oral and dental anatomy, common pathology, examination techniques, radiographic acquisition, and radiographic interpretation.

Oral examination will be taught with the newest equipment for oral and dental endoscopy. Both intraoral and extraoral radiographic techniques will be taught using the most state-of-the-art imaging systems.

After performing oral exams and acquiring radiographs, radiographic interpretation and treatment will be discussed and practiced in small groups to maximize learning.

Veterinarians will leave the course with the knowledge to either start or build their dental practice.

SPEAKERS & INSTRUCTORS

The instructors for this course are recognized as experts in their field and have published peer-reviewed articles in their areas of interest.

Jennifer Rawlinson

DVM, Dipl. AVDC,
Dipl. AVDC (Eq)

Travis Henry

DVM, DAVDC (Eq)

Jack Easley

DVM, MS, ABVP,
AVDC (Eq)

Molly Rice

DVM, DAVDC (Eq)

COURSE PURPOSE

Goals for this meeting will be to provide equine veterinarians instruction and education in the following topics:

- Performing in-depth oral examination utilizing an oroscope
- Recognizing common dental pathology
- Acquisition of intraoral and extraoral dental radiographs
- Dental radiograph interpretation and treatment planning

The overall goal is for private practitioners to explore the latest in dental diagnostic technology and leave the meeting feeling empowered to perform high quality oral examinations and acquire diagnostic dental radiographs that they can accurately interpret to provide a treatment plan.

PREREQUISITES

Participants will be provided with 8 hours of online lectures. Participants must review the material prior to the course, and they will be required to take quizzes after each topic vignette.

By reviewing material and taking the quizzes, the participants will earn 8 hours of CE credit prior to arrival at the conference site.

This online course is available after October 15, 2020.

To access the material, log onto csuvtce.com and click on the menu and then "courses" to view your courses.

PROGRAM

ONLINE LECTURES - At Home Prerequisite Material

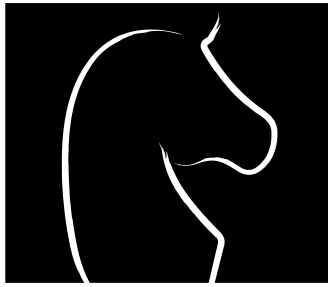

Speaker	Topic
Dr. Jennifer Rawlinson	Review of Equine Dental Anatomy
Dr. Jack Easley	Optimizing the oral examination – oral endoscopy
Dr. Jack Easley	Equid Dental Pathology
Dr. Travis Henry	Extraoral/Intraoral dental radiography
Dr. Jennifer Rawlinson	Equine dental radiograph interpretation
Dr. Travis Henry	Skull Radiograph interpretation
Dr. Molly Rice	Putting it together: Combining oral exam and radiographic findings to create a successful treatment plan.
Dr. Molly Rice	Putting it all together: Case presentations.

IN PRESENT

Time	Speaker / Lab	Topic
07:30am	BREAKFAST	
7:50am - 8:00am	Dr. Jennifer Rawlinson	Introductions and Morning Announcements
7:45-9:45 a.m.	Laboratory 1	Oral examination, intraoral radiography, extraoral radiography, radiograph interpretation, and treatment planning
09:45am- 10:15am	BREAK with snacks	
10:15am - 12:15pm	Laboratory 2	Oral examination, intraoral radiography, extraoral radiography, radiograph interpretation, and treatment planning
12:15pm - 1:00pm	LUNCH Round Table Discussion	
1:00pm - 3:00pm	Laboratory 3	Oral examination, intraoral radiography, extraoral radiography, radiograph interpretation, and treatment planning
03:00pm- 03:30pm	BREAK	
3:30pm - 5:30pm	Laboratory 4	Oral examination, intraoral radiography, extraoral radiography, radiograph interpretation, and treatment planning

REGISTRATIONS

Dates October 27, 2021	COST \$1,995/participant
Course enrollment 24 Attendees maximum	Including : <ul style="list-style-type: none">• Online lectures and wetlabs in small class sizes with experts in the equine dental profession and the best instruments available• Breaks and 1 lunch
CE 16 hours of CE credits
