CSU RACE APPROVED COURSE PROGRAM
EXTRACTION TECHNIQUES
FOR EQUINE TEETH

OCTOBER 28-29, 2021

FOR EQUINE VETERINARIANS

COURSE DESCRIPTION

Extraction Techniques for Equine Teeth focuses on treatment planning and techniques to extract premolar and molar teeth.

The online learning portion of the course covers dental applied anatomy, maximizing oral exam and imaging findings to develop and hone a treatment plan, and equipment and techniques to extract teeth.

Extraction techniques will include intraoral standard extraction manipulations in addition to fragment retrieval, coronectomy, and tooth sectioning.

The goal of this course is to help veterinarians develop the skills and confidence to tackle more challenging dental pathology and extraction.

SPEAKERS & INSTRUCTORS

The instructors for this course are recognized as experts in their field and have published peer-reviewed articles in their areas of interest.

Jennifer Rawlinson

DVM, Dipl. AVDC,
Dipl. AVDC (Eq)

Travis Henry

DVM, DAVDC (Eq)

Jack Easley

DVM, MS, ABVP,
AVDC (Eq)

Molly Rice

DVM, DAVDC (Eq)

COURSE PURPOSE

Goals for this meeting will be to provide equine veterinarians instruction and education in the following topics:

- Comprehensive treatment planning with preparation for extractions via review of oral exam and radiographs
- “Simple” intraoral extraction technique and fragment removal
- Coronectomy, tooth sectioning, and odontoplasty to aid extraction

The overall goal of this meeting is for private practitioners to leave feeling more comfortable and prepared to tackle extraction of equine premolar and molar teeth.

PREREQUISITES

Course Pre-Requisites: Strong recommendation to have taken Equine Dental Diagnostics Upgrade as oroscope and radiograph acquisition/interpretation skills are required.

Participants will be provided with 8 hours of online lectures. Participants must review the material prior to the course, and they will be required to take quizzes after each topic vignette.

By reviewing material and taking the quizzes, the participants will earn 8 hours of CE credit prior to arrival at the conference site. Participants will be sent a link to that material in early August.

The online course will be available after October 15, 2020. To access the material, log into csuvtce.com and click on menu and “courses” and you will see your course there.

PROGRAM

ONLINE LECTURES - At Home Prerequisite Material

Speaker	Topic
Dr. Travis Henry	Anatomical Considerations for Performing Extractions
Dr. Jack Easley	Review of Extraction Armamentarium: Equipment and appropriate usage
Dr. Jennifer Rawlinson	Knowing Extraction Options – Review of Extraction Techniques
Dr. Jennifer Rawlinson	Maximizing Imaging and Oral Examination Findings to Treatment Plan
Dr. Travis Henry	“Simple” Intraoral Extraction
Dr. Molly Rice	Advanced Fragment Retrieval and Alternative Extraction Techniques: Intraoral Coronectomy, Alveolectomy, Sectioning, and Odontoplasty to Aid Extraction: Part 1
Dr. Molly Rice	Advanced Fragment Retrieval and Alternative Extraction Techniques: Intraoral Coronectomy, Alveolectomy, Sectioning, and Odontoplasty to Aid Extraction: Part 2
Dr. Jack Easley	Tackling Extraction Complications

IN PERSON

Day 1		
Time	Speaker / Lab	Topic
07:30am	BREAKFAST	
7:50am - 8:00am	Dr. Jennifer Rawlinson	Introductions and Morning Announcements
8:00am - 9:50am	Case presentations	Focus Treatment Planning, Sedation, and “Simple” Extraction Technique
09:50am- 10:15am	BREAK with snacks	
10:15am - 12:15pm	Laboratory 1	Regional Nerve Blocks, Oroscope Usage, and Introduction to Odontoplasty to Assist Extraction
12:15pm - 1:00pm	LUNCH Round Table Discussion	
1:00pm - 2:30pm	Laboratory 2	“Simple” Intraoral Extraction and Fragment Retrieval
02:30pm- 02:45pm	BREAK (optional)	
2:45pm - 5:15pm	Laboratory 2	“Simple” Intraoral Extraction and Fragment Retrieval
Day 2		
Time	Speaker / Lab	Topic
07:30am	BREAKFAST	
7:50am - 8:00am	Dr. Jennifer Rawlinson	Morning Announcements
8:00am - 9:50am	Case presentations	Focus Treatment Planning and Coronectomy Extraction Technique
09:50am- 10:15am	BREAK with snacks	
10:15am - 12:15pm	Laboratory 3	Laboratory 3: Coronectomy and Tooth Sectioning to Aid in Extraction
12:15pm - 1:00pm	LUNCH Round Table Discussion	
1:00pm - 2:30pm	Laboratory 3	Laboratory 3: Coronectomy and Tooth Sectioning to Aid in Extraction
02:30pm- 02:45pm	BREAK (optional)	

REGISTRATIONS

Dates

October 28-29, 2021

Course enrollment

24 Attendees maximum

CE

24 hours of CE credits

COST

\$2,995/participant

Including :

- Online lectures and 2-day wetlab in small class sizes with experts in the equine dental profession and the best instruments available
- Breaks and 2 lunches
